Heart of Hearts – Times Square Valentine Heart

February 9 – March 6 in Duffy Square

- Since 2008, the Times Square Alliance has invited architecture and design firms to submit proposals for a romantic public art installation celebrating Valentine's Day in Times Square. This year, Times Square Arts partnered with Center for Architecture to select *Heart of Hearts* by Collective-LOK (CLOK) as the winning design. CLOK's *Heart of Hearts* is a faceted ring of golden, mirrored hearts that creates a kaleidoscopic pavilion multiplying the spectacle of Times Square. Diamond-shaped spaces inside each heart will create "kissing booths" within the ring where couples will find their activities mirrored, allowing both privacy and publicity in the *Heart of Hearts*.
